April – June 2025

Calanjiyam Consultancies and Technologies

Tamil Nadu

- Contributing in our group project which is “ web based coffee billing system ”
- I’m handle the “ product management module ”.
- Created UI for display product with details and also can add manually and using HTML-CSS, JavaScript, PHP, Mysql.

## PROJECTS

**Portfolio** 📁 ( <https://purvesh-portfolio.netlify.app/> )

**Tech Stack :-** HTML/CSS , JavaScript, React

Built a personal portfolio using ReactJS with a focus on reusable components for efficient code structure. Deploy with the help of Netlify hosting service.

## **React – Calculator ▯ ( <http://calculator-purvesh.netlify.app/> )**

**Tech Stack :-** HTML/CSS, JavaScript, React

Built a basic yet functional calculator using React that performs arithmetic operations like addition, subtraction, multiplication, and division. Focused on clean UI design using CSS and implemented component-based architecture in React.

## **Web Based billing system**

▯ ( [https://crisscrosstamizh.in/WDI\\_APR\\_25/web\\_billing/index.html](https://crisscrosstamizh.in/WDI_APR_25/web_billing/index.html) )

**Tech Stack :-** HTML/CSS, JavaScript, PHP, MySQL

It's web based coffee billing system where the store keeper will manage the customer details and invoices and the customer is regular or not and also manage the product menu all the product and it's up to date means from sing-up to pay bill on web.
